

## PODERI VAIOT

### ESTATE HISTORY

In 2001 after years of learning the family secrets from their father, Franco, Daniele and Walter Casetta began forging their own path in the wine world using their father's vision as a guide. By studying, experimenting and combining passion with innovation, they have found a unique and distinctive style.

The vineyards and hills of the Roero, where Poderi Vaiot is located, stretch out as far as the eye can see, alternating with picturesque ravines, castles and old villages. This historic region of Piedmont straddles the provinces of Cuneo, Asti and Torino, and was recognized as a UNESCO World Heritage site in 2014.

Safeguarding this historic land and environment is important to Poderi Vaiot, where winegrowing traditions have always sought to establish equilibrium between man and nature. Most of the work is done by hand to preserve the land's natural biodiversity. Many wild herbs grow in Poderi Vaiot's estate vineyards. They are beneficial to the ecosystem and to health, and the intention is to protect them, rediscovering their uses and properties.

Poderi Vaiot's wines reveal the Roero. In every sip of wine there is an aspect of this prime terroir for both their red and white DOC and DOCG wines. These are diverse wines that suit any occasion while still expressing the qualities that are so unique to the Roero.
